

Quantum Learning Levels I - III (Three Days)

JUNE 9,10,11, 2008

This 3 day workshop will provide training on evidenced-based teaching methods designed to enhance teacher capacity to adapt curricular materials, instructional strategies and the classroom environment to meet diverse learner needs in the classroom. Quantum Learning is a comprehensive model of instructional strategies confirmed to increase student achievement and teaching quality. Participants will discover the latest research about learning and collect practical brain-compatible strategies that can be used immediately and be adapted to the local curriculum. Participants will discover a vast repertoire of new educational strategies, learn how to implement them in the classroom and discover the "why" behind each.

QUANTUM LEARNING IS LIMITED TO 30 PARTICIPANTS.

*Stipends can be funded through STAR dollars with administrative approval.
