

Podcast Server Training

Audience: LAN Managers
Technology Teachers
Teachers using podcasts or movies in their classroom

Need to post lectures or podcasts for your students to access anytime, anywhere? Are your students creating multimedia projects but there is no room to host them on your school's server? Want to post student created podcasts or movies and make them available to your community and to the world? Then, this training is for you...

ESU #9 has a new server dedicated to hosting student and teacher generated projects such as podcasts and movies. If you would like to use the ESU #9 podcast server to host your student and/or teacher projects, then this training is a must!

Participants will...

- Be required to sign a user agreement
- Be given a user name and password
- Learn how to upload files
- Learn how to manage those files

Date: 9/4/2008
