

Leadership Teams Session #2

Sustaining school improvement plans that have a high impact on student learning is the work of a system. To support growth and change and the shared leadership that must be present, the professional development team is offering leadership team training throughout the 2008-09 academic year.

Each district/building is invited to bring a leadership team of 2-4 people (Principals, SIP chairs) to participate in this intensive study of sustaining change initiatives. Involvement in these sessions is intended to have direct impact on school improvement.

*All resources, as well as breakfast and lunch, will be provided for registered participants.

(These sessions are an updated version of the Principals' Study Groups.)

Date: 10/14/2008

Time: 9:00 a.m. - 1:00 p.m.

Site: ESU #9 JVW

Presenter/Facilitator(s):
